

TOGETHER WE CAN OBJECTIVES

Promoting the social inclusion of at-risk groups in education, training and youth activities and encouraging young people's planning and leadership, through the adoption of educational programs based on the approach known in the literature as "Comprehensive Social Influence" , able to prevent the use of substances among young people.

Adapt and transfer in the 6 partner countries the best practices identified relating to prevention methodologies based on non-formal education.

Spreading such best practices at local, regional, national and European level.

EXPECTED RESULTS

- encouraged prevention paths through play;

- encouraged social inclusion and empowerment of young people at risk;

- Favored the exchange of successful European projects in the field of prevention;

- created an environment for young people to exchange opinions and thoughts;
